## Appendix B: Vacant Land Inventory

City of Hollister 2005 General Plan

# Appendix B

## Inventory of Housing Sites

Errata: The inventory of housing sites was added to the General Plan by General Plan Amendment 2006-1 (City Council Resolution 2007-68). Some corrections have been made to the Table B-2 inventory that was approved by Resolution 2007-68. Assessor Parcel 52-18-05 was included in Table B-2 for Low Density Residential and Mixed Use West Gateway and has been omitted from the inventory for Low Density Residential. The density ranges for the Mixed Use West Gateway designation in Table B-2 were corrected to be consistent with the approved densities in the Land Use Plan with an average density of 28 units per acre and a maximum density of 35. The corrections to the Table B-2 inventory have also been incorporated into Table A23 and the discussion of additional housing capacity of Appendix A.

<sup>1</sup> Estimate is based on vacant land and does not factor potential infill on larger parcels with infill development potential.

<sup>2</sup> Estimate is based on vacant land and does not factor potential infill on larger parcels with infill development potential.

<sup>3</sup> Actual acreage of land in mixed use designation is the City, Sphere and Planning Area in Tables B-2, B-3 and B-4 is closer to 100 acres but some areas will require redevelopment (about 35 acres) and some areas in the Mixed Use designation will be developed for commercial uses so projected acreage is reduced to 65 acres.
